

Apseal™

Premium open weave fabric protector and water repellent

Provides maximum water repellency, stain protection, plus inhibits UV damage and mildew growth.

Appearance and Odor: Clear, water white liquid with a mild solvent odor.

Coverage: Depending on the method of application and environmental conditions, you may expect approximately the following surface protection:

150 square feet per 32 oz. Spray; 600 square feet per gallon

Availability: 32 oz. Spray, Gallon, 5-Gallon Pail, 55-Gallon Drum

Applications: **Apseal** may be used on most open weave fabrics to provide a protective stain and water repellent finish. For best results, **Apseal** should be applied when fabric is clean and dry.

Dilution and Use Directions:

1. Clean the fabric using **APCO FabClean Green**.
2. Apply **Apseal** to clean, dry fabrics. Apply full strength from an appropriate hand pump sprayer in well ventilated area.
3. Spray **Apseal** on the fabric in a slow sweeping motion 10-12 inches from surface. Cover thoroughly and completely but **DO NOT SATURATE**; 2 light coats will be more effective.
4. Let fabric dry thoroughly before use.

Important: Do not allow **Apseal** to get on undesired surfaces, as it can be difficult to remove. Immediately clean up any over-spray.

Safety/Precautions: **Apseal** should be used only in well ventilated areas. To certain sensitive individuals, skin or eye irritation may exist with exposure. Care should be taken to keep this and all chemicals out of eyes and off skin. See SDS for other precautions and first aid. Rotate stock regularly. Keep out of reach of children. Best if used above 45°.
